| Full Pipe | 24 |
| Pipe Coping | 23 |
| Over-Vert | 16 |
| Cradle | 15 |
| Half Pipe (8-Foot) | 12 |

Question 6: Do you have any general comments about the overall design of your park?

1. Yes. Why are we doing a skate park? Why not a nice playground with all kinds of features for all kids of all ages. A skate park is very unnecessary and could be dangerous for our children.
2. I would rather have a walking park area
3. *I trust our community is making the the best choice*
4. *Make it accessible to bikes and scooters.*
5. Let the local skaters and youth design it please!
6. Excited to see the design
7. Excited to see the finished product and please make it skate at your own risk
8. Can we make sure lights are good
9. Soledad skatepark has been long overdue for an actual skatepark.

10. A good reference for a hybrid skatepark is the Fremont Skatepark they have a nice balance of street and bowls
11. Have a nice trail to walk around and watch the kids / adults skateboarding .
12. A full size vert ramp or competition bowl would be fun. A small mega ramp style flow would be exciting. Step ups and bank to bank.
13. Open to all
14. Section should be for beginners and advanced to create future events for families
15. Just waiting to see how it comes out
16. Keep it optional for Helmets and knee pads for people over the age of 18
17. Stoked! Im excited to come visit. If anyone needs assistance on reaching out to skaters, my company assists with marketing and I have 10+ years in action sports. I would be glad to speak with someone on developing a marketing budget to promote people visiting Soledad. Good luck team!
18. Add benches with shade area
19. The only concern that I would have is will this park be open for like little kids that want to learn to skateboard or ride a bike
20. Please consider the overall flow & atmosphere when arranging obstacles. Try to avoid squeezing numerous ledges or ramps into one area (like Greenfield skatepark). Also, PLEASE allow helmets & pads to be OPTIONAL, at the very least only required for participants under the ages of 18. Thank you!!!
21. Really dont care about the design of skate park as there is one already in Soledad.
